

INSERTS PACKAGING & DELIVERY INSTRUCTIONS

1.1. INSERTS PACKAGING & DELIVERY PACKAGING

- Full packaging and delivery instructions must be supplied to the commercial printer.
- Please provide printer's name, address and phone number to your News Limited representative.
- Inserts are to be turned so that the minimum turned height is 100mm. Spine of the insert to be packed all the one way within a bundle or turn.
- Bundles must contain a maximum of one turn with a maximum bundle weight of 10kg.
- Bundles may be strapped from top to bottom, single tie only (the wider the strapping the better). The tension of the strapping should not in any way damage the bundle.
- Boxes or cartons for packing should only be used at publishing managers request if neat bundles cannot be achieved. If packed in cartons inserts should be stacked flat with no turns. The weight of the carton should not exceed 10kg.
- Plain pallets should be Australian standard size 1165mm x 1165mm and in good condition, without loose or broken timbers.
- Maximum height of pallet to be 1200mm including pallet runners and the maximum weight not to exceed 1000kg.
- If the pallet does not have a solid smooth base, a piece of wood or a substantial piece of cardboard should be placed over the pallet before stacking of cardboard should be placed over the pallet before stacking.
- The use of a sturdy piece of cardboard at even intervals throughout the stack will help keep the inserts flat, and avoid shifting during transportation. Gaps between bundles on the pallet should be kept to a minimum.
- A solid piece of wood, the same dimensions as the base of the pallet, should be placed on top of the stacked bundles to prevent strap damage.
- Inserts are to be stacked squarely on pallets with cardboard corners and shrink wrapped.
- Outside edges should be vertically even and the inserts should be stacked so that they do not protrude beyond the limits of the pallet.
- The pallets should be strapped four ways as per the following illustration.
- The pallet should be wrapped in plastic with cardboard corner protection and shrink wrapped for further protection.
- The Publisher reserves the right to refuse inserts which have been damaged in the process of printing, packaging and transportation.

1.1.1. PALLETS -

Some exclusions/conditions apply to the use of Chep and plain pallets at Nine Publishing Print & Logistics.

Packaging and Delivery Instructions

Nine Publishing Print & Logistics, North Richmond NSW	<p>Plain pallets are preferred for all commercial inserts. Australian standard plain pallets, size 1165mm x 1165mm with no specific administrative management is the preferred option for all incoming products however, no exchange of plain pallets will occur due to low stock.</p> <p>Chep pallets will be accepted, however, all Chep pallets will be exchanged at time of delivery, no exceptions. There will be no de- hiring of Chep pallets at North Richmond.</p>
Capital Fine Print, Canberra ACT	<p>Plain pallets are preferred for all commercial inserts. No Chep account – exchange only.</p>
Nine Publishing Print and Logistics, Ballarat VIC	<p>Plain pallets are preferred for all commercial inserts.</p> <p>Chep pallets will be accepted if the following provisions are adhered to:</p> <ul style="list-style-type: none">• If they have to be on chep pallets the pallets must be transferred to Ballarat. This is on a no exchange basis.• The sender must transfer the pallets directly to account is 1610333355 - Rural Press Printing - Ballarat prior to dispatching incoming goods.• On arrival, the carrier should present the sender's CHEP transfer docket or relevant account number so all Chep pallets are correctly transferred from one account to the other. Once this process is completed, delivery of goods on Chep pallets will be discharged accordingly.

News Limited Sydney Print Centre Brisbane Print Centre Yandina Print Centre Warwick Print Centre Townsville Print Centre	<p>Plain pallets are preferred for all commercial inserts. No Chep account.</p>

1.2. PACKAGING SPECIFICATIONS

For delivery to North Richmond or Ballarat, bundles of inserts on each tier must not be tied, banded or shrink wrapped. The inserts must remain flat. Saddle stitching should be tight and wherever possible, staggered.

Products fewer than 24 pages must be spine glued or loose sheet. For delivery to any other Nine Publishing print site, bundles of inserts on each tier must be tied, banded or shrink wrapped.

Prior to shrink-wrapping pallets, ensure corners of the stack are protected against distortion and a minimum of 4 nylon or plastic strapping bands are used to secure the stack.

Metal strapping has been identified as an occupational health & safety hazard and is therefore unacceptable.

1.2.1. PALLET SPECIFICATIONS FOR BOXES AND CARTONS

Inserts (which are large enough to be palletised) that are packed in boxes are NOT acceptable at ACM Print & Logistics, Ballarat and ACM Print & Logistics, North Richmond. They will be rejected regardless of whether or not they are secured on a pallet.

Inserts in boxes will be accepted by Mandurah, ACM Print & Logistics, Murray Bridge and ACM Print & Logistics, Launceston Tasmania.

1.2.2. PALLET LABELS

It is important that all pallets are labelled clearly with the following information

1. Reference number supplied by the inserts production department
2. Newspaper title / Client's name
3. Product/Insert name
4. Insert run date
5. Total number of inserts shipped
6. Total number of pallets shipped
7. This pallet is number "x" of "y"
8. Number of copies in each lift/bundle
9. Estimated weight of the pallet

A standardised pallet tag has been provided with this email as a separate attachment to this document. To avoid any issues, please ensure this pallet tag is placed on each pallet prior to delivery.

Any pallets delivered not clearly displaying the required information will be rejected.

1.3. DELIVERY INSTRUCTIONS

On-time delivery of insert material and confirmation of delivery allows for a final inspection of the material prior to actual insertion. If problems are detected a client can be advised of the nature of the defect and how it will impact on the operation. The client in turn can advise us of their position.

1.3.1. DELIVERY SPECIFICATIONS

Inserts must be delivered no later than seven days prior to the print date or additional charges may be incurred or the inserts may be rejected.

Inserts may need to be delivered to more than one print site. Please ensure inserts are delivered to the locations advised by the inserts department. All address is advised in section 1.3.2.
